

K-LOVE is an integral part of my day. I have longed for years for a station in our area that would broadcast quality Christian music all day long. There have been other Christian stations in our listening area over the years but none that play so much music. The others broadcast mostly teaching programs. K-LOVE has filled a very needy spot in the Kansas City listening area. There is no other station that does programming like they do. K-LOVE provides uplifting and encouraging music and words. They promote family-friendly values and they provide a lot of counseling help for those that need those services. K-LOVE provides a positive and encouraging impact on our community. Please help keep K-LOVE on the air in our area.
